DIABETES UPDATE 2020

WEDNESDAY, NOVEMBER 4, 2020

8:00a.m.-11:45a.m.

AGENDA

8:00 a.m.-8:15a.m.

Welcome & Introduction
Dr. Stewart Harris

8:15 a.m.-9:00a.m.

How the Global Burden of Diabetes Keeps Changing and Where it is Going?"
Dr. Edward Gregg

OBJECTIVES

- > Describe the recent trends and variation in diabetes related incidence and morbidity around the world.
- > Describe emerging problems and diversifying complications under way in high, middle, and low-income countries.
- > Discuss the implications of these trends and changes for the major public health interventions.

9:00 a.m.-9:30a.m.

Diabetic Retinopathy and Macular Edema – Current Trends / Future Directions
Dr. Tom Sheidow

OBJECTIVES

- >To provide an overview of diabetic retinopathy and diabetic macular edema.
- >To discuss current screening protocols and testing modalities.
- >To discuss past and recent studies and the resulting changes in treatment paradigms.

9:30a.m.-9:45a.m.

Break

9:45a.m-10:15a.m.

GLP1 and SGLT2: Benefits for Kidneys
Dr. Louise Moist

OBJECTIVES

- > To understand the relationship between kidney outcomes with cardiovascular outcomes.
- > To identify the indications for use, benefits, and harms of SGLT2I and GLP1 based on recent trial data
- > To integrate the use of SGLT2I and GLP into your practice based on best evidence

10:15a.m-10:45a.m.

Diabetes and Osteoporosis-Misunderstood, Unrecognized and Seldom Treated
Dr. Tayyab Khan

OBJECTIVES

- > To characterize fracture risk associated with Diabetes Mellitus.
- > To explore the care gap associated with treatment of osteoporosis in those with diabetes.
- > To review treatment options for osteoporosis for patients with diabetes.

10:45a.m.-11:00a.m.

Break

11:00a.m.-11:30a.m.

The New Person-Centered Outcomes-Driven approach for Type 2 Diabetes: A paradigm shift on how to take care of your patients in the new millennium.

Dr. Stewart Harris

OBJECTIVES

- > To understand how the large CVOT and Renal outcomes trials have changed guidelines
- > To understand the new algorithms for a person-centered approach to your patients with T2DM
- > To review and how and when to use glucose-lowering therapies (IE GLP1-RA and SGLT2i)

11:30 a.m.-11:45a.m.

Summary & Adjournment

Dr. Tamara Spaic
